Registered Safety Supplier Scheme
1. Mission statement

The BSIF directly and through its membership, seeks to progressively provide the specifiers, purchasers and users of PPE and Safety Products with the necessary expertise, information, and support to ensure suitable and adequate, quality PPE, Safety Equipment & Safety Services are selected to mitigate risk, providing a safer and healthier future for all.

The Federation harnesses and shares the knowledge and know-how of the regulators, the national and international standards bodies and the safety and health profession enabling PPE, Safety Equipment and Safety Services to deliver positive outcomes for all.

The values of quality, capability, expertise, integrity and a considered approach to sustainability and social responsibility are intrinsic within the BSIF and its membership

Registered Safety Supplier Scheme
2. Purpose of the Scheme

The BSIF is the trade association for the Safety and Health industry in the UK and exists to ensure that those who rely on PPE, Safety Equipment and Safety Services are provided with fit for purpose products and services through a capable supply chain, ensuring their immediate protection and safeguarding their current and future health.

Participation within the scheme and use of the scheme shield differentiates your business in the market and demonstrates to your customers and suppliers your organisation's commitment that all PPE and related Safety Products and Services traded will comply with requirements of the applicable Directive or Regulation, and any product performance to which claims are made.

It also provides a recognised route for your business to demonstrate compliance with due diligence obligations of economic operators under the relevant legislation(s)

Registered Safety Supplier Scheme
3. Participation & Eligibility

Participation in the scheme is open only to members and affiliates of the BSIF (hereinafter any reference to members or membership shall be taken to also refer to affiliates) and is a requirement of BSIF membership for **all** members engaged in the supply chain of personal protective equipment and/or related Safety Products and Services.

A new Registered Safety Supplier Scheme applicant will be accepted on the basis that they are “working towards” becoming a Registered Safety Supplier Scheme member. The “working towards” status will last for a maximum of six months whereupon the applicant must be able to demonstrate that they comply with the requirements of the scheme, through completion of the annual assessment process or in the event of a complaint being received by BSIF.

Registered Safety Supplier Scheme
4. Assessment Process

The assessment process is designed to allow the organisation being assessed to provide evidence and information that they meet the requirements of the scheme and any relevant legislation such as the PPE Regulation

It also allows the assessment team to ensure that any organisation who achieves Registered Safety Supplier status has demonstrated that they meet the key principles of the Scheme.

Compliant

Competent

Verified

Dependable

Registered Safety Supplier Scheme
4. Assessment Process

PPE/Safety Equipment Manufacturer, Importer, or Distributor

Requirement	Action	Requirement	Action
Declaration Completed	Details of Business type and QMS in place	Product Assessment and indicative testing	Assessment of documents/markings & indicative testing
Quality Management System and any Certification provided	Documented QMS provided or certification	PPE Compliance Protocols completed	Completed checklist in relation to obligations
RSSS Statement included online or within the Quality Policy	Documented Quality Policy or Webpage provided	Customer facing team complete Safe Supply Course & Exam	Delegates registered and timeline for completion in place
Traceability, Recall & Corrective Actions Process	Documented processes provided	Proof of Product & Public Liability insurance cover provided	Schedule, Certificate or “to whom it may concern” letter provided

All or some of the above will apply dependant upon the type of business you operate as.

Registered Safety Supplier Scheme

PPE/Safety Equipment MRO/Calibration etc. provider

Requirement	Action	Requirement	Action
Declaration Completed	Details of Business type and QMS in place	Process or Test Assessment	Witness the process and assess based on agreed criteria
Quality Management System and any Certification provided	Documented QMS provided or certification	Competency Assessment	Evidence of training records, certification and other support
RSSS Statement included online or within the Quality Policy	Documented Quality Policy or Webpage provided	Customer facing team complete Safe Supply Course & Exam*	Delegates registered and timeline for completion in place
Traceability, Recall & Corrective Actions Process	Documented processes provided	Proof of Product & Public Liability insurance cover provided	Schedule, Certificate or “to whom it may concern” letter provided

All or some of the above will apply dependant upon the type of business you operate as.

* Where the process is related to PPE

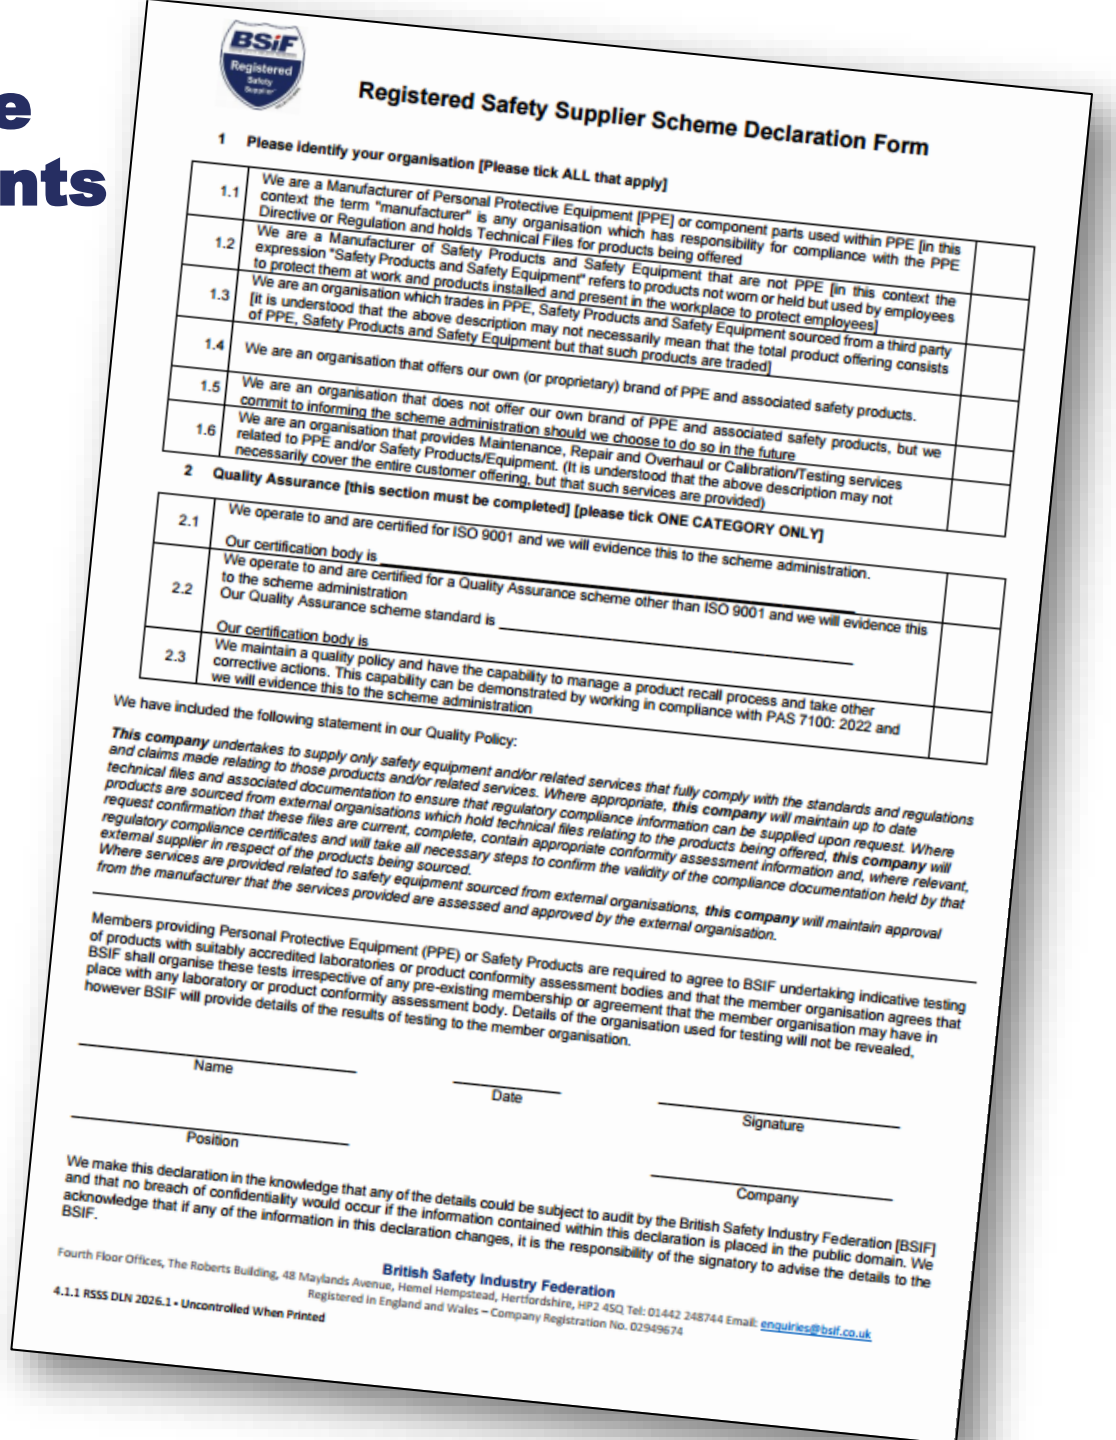
Registered Safety Supplier Scheme
4. Assessment Process - Requirements

BSIF members engaged in the supply chain of Personal Protective Equipment and related Safety Products and Services are required to participate in the Registered Safety Supplier Scheme by complying with all relevant requirements of the assessment process as detailed.

4.1 – Annual RSSS Declaration

Completing a formal and binding declaration signed by an authorised individual of the organisation that all PPE, Safety Products and Services supplied will comply with the requirements of any applicable Directive or Regulation and any product performance claimed.

Where products and/or services are supplied that are not subject to publicly available standards, declare that the products and/or services perform as claimed.



BSiF Registered Safety Supplier

Registered Safety Supplier Scheme Declaration Form

1 Please identify your organisation [Please tick ALL that apply]

1.1	We are a Manufacturer of Personal Protective Equipment [PPE] or component parts used within PPE [in this context the term "manufacturer" is any organisation which has responsibility for compliance with the PPE Directive or Regulation and holds Technical Files for products being offered	
1.2	We are a Manufacturer of Safety Products and Safety Equipment that are not PPE [in this context the expression "Safety Products and Safety Equipment" refers to products not worn or held but used by employees to protect them at work and products installed and present in the workplace to protect employees]	
1.3	We are an organisation which trades in PPE, Safety Products and Safety Equipment sourced from a third party [it is understood that the above description may not necessarily mean that the total product offering consists of PPE, Safety Products and Safety Equipment but that such products are traded]	
1.4	We are an organisation that offers our own (or proprietary) brand of PPE and associated safety products.	
1.5	We are an organisation that does not offer our own brand of PPE and associated safety products, but we commit to informing the scheme administration should we choose to do so in the future	
1.6	We are an organisation that provides Maintenance, Repair and Overhaul or Calibration/Testing services related to PPE and/or Safety Products/Equipment. (It is understood that the above description may not necessarily cover the entire customer offering, but that such services are provided)	

2 Quality Assurance [this section must be completed] [please tick ONE CATEGORY ONLY]

2.1	We operate to and are certified for ISO 9001 and we will evidence this to the scheme administration. Our certification body is _____	
2.2	We operate to and are certified for a Quality Assurance scheme other than ISO 9001 and we will evidence this to the scheme administration Our Quality Assurance scheme standard is _____ Our certification body is _____	
2.3	We maintain a quality policy and have the capability to manage a product recall process and take other corrective actions. This capability can be demonstrated by working in compliance with PAS 7100: 2022 and we will evidence this to the scheme administration	

We have included the following statement in our Quality Policy:

This company *undertakes to supply only safety equipment and/or related services that fully comply with the standards and regulations and claims made relating to those products and/or related services. Where appropriate,* ***this company*** *will maintain up to date technical files and associated documentation to ensure that regulatory compliance information can be supplied upon request. Where products are sourced from external organisations which hold technical files relating to the products being offered,* ***this company*** *will request confirmation that these files are current, complete, contain appropriate conformity assessment information and, where relevant, regulatory compliance certificates and will take all necessary steps to confirm the validity of the compliance documentation held by that external supplier in respect of the products being sourced.*
Where services are provided related to safety equipment sourced from external organisations, ***this company*** *will maintain approval from the manufacturer that the services provided are assessed and approved by the external organisation.*

Members providing Personal Protective Equipment (PPE) or Safety Products are required to agree to BSIF undertaking indicative testing of products with suitably accredited laboratories or product conformity assessment bodies and that the member organisation agrees that BSIF shall organise these tests irrespective of any pre-existing membership or agreement that the member organisation may have in place with any laboratory or product conformity assessment body. Details of the organisation used for testing will not be revealed, however BSIF will provide details of the results of testing to the member organisation.

Name _____ Date _____ Signature _____

Position _____ Company _____

We make this declaration in the knowledge that any of the details could be subject to audit by the British Safety Industry Federation [BSIF] and that no breach of confidentiality would occur if the information contained within this declaration is placed in the public domain. We acknowledge that if any of the information in this declaration changes, it is the responsibility of the signatory to advise the details to the BSIF.

Fourth Floor Offices, The Roberts Building, 48 Maylands Avenue, Hemel Hempstead, Hertfordshire, HP2 4SQ Tel: 01442 248744 Email: enquiries@bsif.co.uk
British Safety Industry Federation
Registered in England and Wales – Company Registration No. 02949674

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.2 – **Traceability, Recall & Corrective Actions**

Demonstrate that they have a process in place to trace all products/services provided & the capability to manage a product recall process which is inclusive of any component parts and will take other relevant corrective actions by providing a documented process detailing this.

4.2.1 – **Quality Policy Statement**

Maintain a quality policy which includes the following statement or is displayed on a company webpage or within a CFSI (Counterfeit, Fraudulent or Suspect Items) Policy.

This company *undertakes to supply only safety equipment and/or related services that fully comply with the standards, regulations and claims made relating to those products and/or related services. Where appropriate,* ***this company*** *will maintain up to date technical files and associated documentation to ensure that regulatory compliance information can be supplied upon request.*

Where products are sourced from external organisations which hold technical files relating to the products being offered, ***this company*** *will request confirmation that these files are current, complete, contain appropriate conformity assessment information and, where relevant, regulatory compliance certificates and will take all necessary steps to confirm the validity of the compliance documentation held by that external supplier in respect of the products being sourced.*

Where services are provided related to safety equipment sourced from external organisations, ***this company*** *will maintain approval from the manufacturer that the services provided are assessed and approved by the external organisation.*

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

<u>4.3</u> – PPE Assessment

Submitting to the assessment of one product per year selected from their offering. This assessment will include a review of the related Declaration of Conformity, User Instructions, packaging and product markings. For Manufacturers copies of the Module B and where relevant Module C2 or Module D certification will also be required.

A product will also undergo indicative testing to one or more clauses from any product performance standard to which the product is certified. The product testing will be conducted by an accredited test laboratory.

This indicative testing will be carried out annually until the member can demonstrate 3 years in a row of assessment and tests that have been successfully passed, at which point the physical testing interval will be biennial (every 2 years).

In the case of members ***working towards RSSS***, the indicative testing will take place in the first 6 months, in line with the application for Registered Safety Supplier Status.

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.3.1 – BSIF PPE Protocols

For Importers and Distributors to demonstrate that they comply with the "Obligations and Responsibilities" required under the PPE Regulation (EU) 2016/425 as incorporated into UK law and the PPE Regulation (EU) 2016/425, as it applies in Northern Ireland and the EEA.

This will be demonstrated by providing completed BSIF compliance protocols or equivalent in relation to the PPE being assessed.

Statement to Support and Guide UK Commercial Operators from Market Surveillance Authorities

Being a member of the British Safety Industry Federation Registered Safety Supplier Scheme and abiding by its terms and conditions and adhering to the prescribed and Audited Compliance Protocol will provide evidence to Market Surveillance Authorities that you have a due diligence system in place to demonstrate compliance with the Obligations and Responsibilities of economic operators as referenced within "Regulation 2016/425 on personal protective equipment, as incorporated into UK Law" when referring to PPE placed on the GB market,
"Regulation (EU) 2016/425 on personal protective equipment, as it applies in NI" when referring to PPE placed on the NI market, and/or "Regulation (EU) 2016/425 on personal protective equipment" when referring to PPE placed on the EEA market, as pertaining to obligations and responsibilities as an 'Importer' and or a 'Distributor'.
It does not necessarily provide a guarantee that all products are compliant.

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

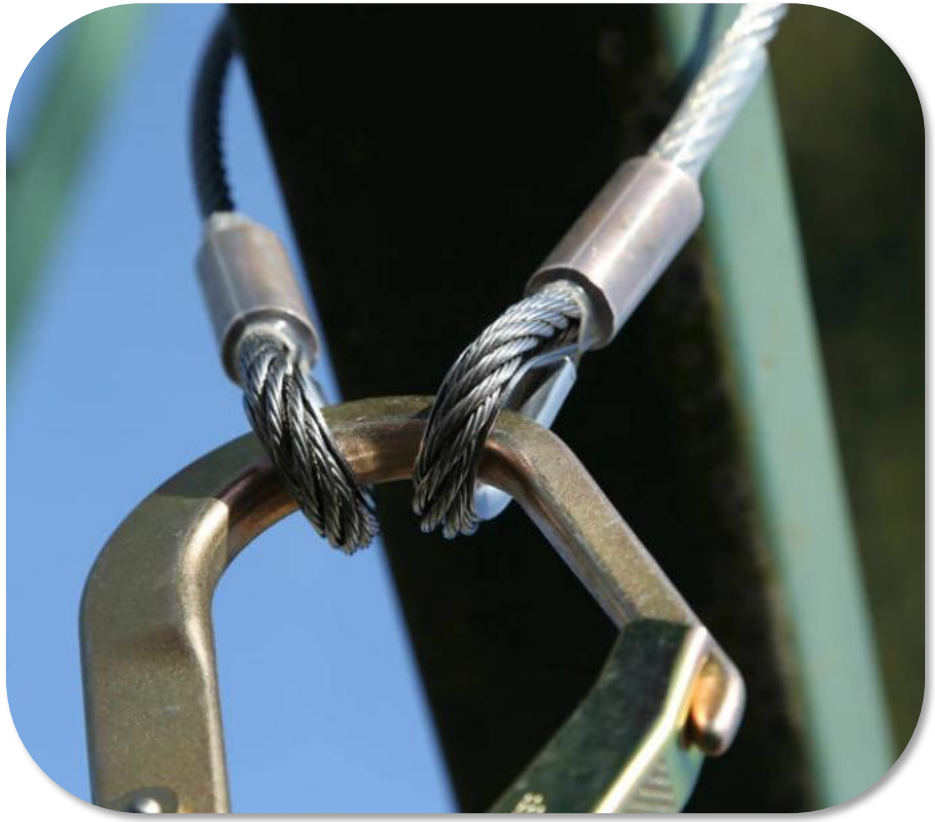
4.4 – Assessment of Safety Equipment

For safety equipment beyond the definition of PPE, submitting to an assessment of their quality management systems and relevant documentation of one or more products from their offering per annum.

A product will also undergo indicative testing to one or more clauses from any product performance standard to which the product is certified, or for which claims of performance are made.
The product testing will be conducted by an accredited test laboratory.

This indicative testing will be carried out annually until the member can demonstrate 3 years in a row of assessment and tests that have been successfully passed, at which point the physical testing interval will be biennial (every 2 years).

In the case of members working towards RSSS, the indicative testing will take place in the first 6 months, in line with the application for Registered Safety Supplier Status.



Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.5 – Witness Assessment & Report
For organisations authorised by manufacturers to service, calibrate and/or re-certify products, a member of the scheme administration will assess the relevant in-house performance/testing/calibration/service process offered by the organisation. This assessment will encompass the following aspects (all/some or none of these may be assessed dependent upon the organisations offer to their customers).

4.5.1 Assessment of Approval/Certification from any relevant manufacturer that the member organisation is authorised to carry out the performance/testing/calibration/service.

4.5.2 Assessment of Technician/Engineers competence via proof of training by relevant manufacturer/competent trainer (ongoing) and relevant support/guidance from colleagues and supervisors

4.5.3 Assessment of guidelines for the performance/testing/calibration/service provided by manufacturer or the member organisation – copy to be retained by a member of the scheme administration.

4.5.4 Assessment of understanding of requirements of any specified relevant documentation, such as relevant Standard(s)/Test Method(s), Publicly Agreed Specification (PAS), or manufacturer guideline/test method(s)

4.5.5 Witness of the process by a member of the scheme administration (any pre-conditioning requirement may be carried out prior to the Witness/Test Protocol, however the individual conducting the process must be able to prove they understand the requirement and prove that it has been carried out accordingly).

4.5.6 Post-performance/testing/calibration/service processes must be completed and witnessed (E.G., completion of Service Record Sheet)

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.5.7 – Witness Assessment: Report

The scheme assessor will provide a draft witness report for agreement with the organisation. This will contain some or all the following:

- Member company name/address
- Product/Service etc. assessed.
- Serial No. Batch No. or ID No. of products assessed.
- Method statement – what processes were assessed.
- Relevant applicable legislation
- Protocols – the physical 'work' witnessed by the scheme administrator in a step-by-step breakdown
- Conclusion – What the scheme administrator witnessed in relation to the provided guidance documentation

Approval Capability Communication Competence

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.6 – Safe Supply Course & Qualification

For companies involved in the PPE supply chain, committing to educate and accredit customer-facing staff within the Nebosh endorsed BSIF Safe Supply Course and Qualification (SSCaQ) or other appropriate and equivalent qualifications covering Personal Protective Equipment, agreed in advance by the scheme assessor.

This commitment involves both registration of delegates to undertake the course and setting a timeline for completion of the course and the end theory test within 12 months of registration.

*"Anyone can sell Safety, but you shouldn't buy Safety from **just** anyone"*

Registered Safety Supplier Scheme
4. Assessment Process - Requirements

4.7 - Assessment of suitable liability cover.

As a condition of registration all Registered Safety Suppliers must ensure they are adequately insured for any liability claim likely to be brought against them relating to the supply of PPE, safety equipment and/or the provision of safety services.

Documented evidence of suitable Public and Product liability cover must be provided to the scheme administrator. This may be in the form of a schedule of insurance, certificate of insurance or a “to whom it may concern” letter from the provider.

The evidence provided must show the value of cover in financial terms, that it covers the UK locations for the member concerned and the date of expiry of the cover.

Registered Safety Supplier Scheme
5. Assessment Criteria

The BSIF does not set out to impose onerous assessment procedures on applicants or companies within the scheme.

However, for the scheme to maintain its credibility, it is essential that confidence in the fidelity of the information provided is gained through checks carried out by organisations which have no vested interests and therefore the Registered Safety Supplier Scheme will operate with an independent Governing Board.

Within the terms of the Registered Safety Supplier Scheme, the Governing Board's only interest is compliance with the scheme's requirements as they apply to the elimination of non-compliant, unsafe or counterfeit and illegal products and services and the enhancement of economic operator's capabilities and their ability to comply with the PPE Regulations and/or other relevant legislation

The scheme assessment process will focus on these factors. For the avoidance of any doubt, processes outside of product and service compliance and conformity, and the members capability to provide an ethical service through qualified staff fall outside the scope of any Registered Safety Supplier Scheme assessment.

Products which carry the BSI Kitemark or other recognised similar independent accredited quality marks will not be assessed within the scheme.

The member is required to supply all documents and - where relevant – products requested as part of the assessment within one calendar month of the assessment meeting.

Registered Safety Supplier Scheme
6. Assessment Outcomes

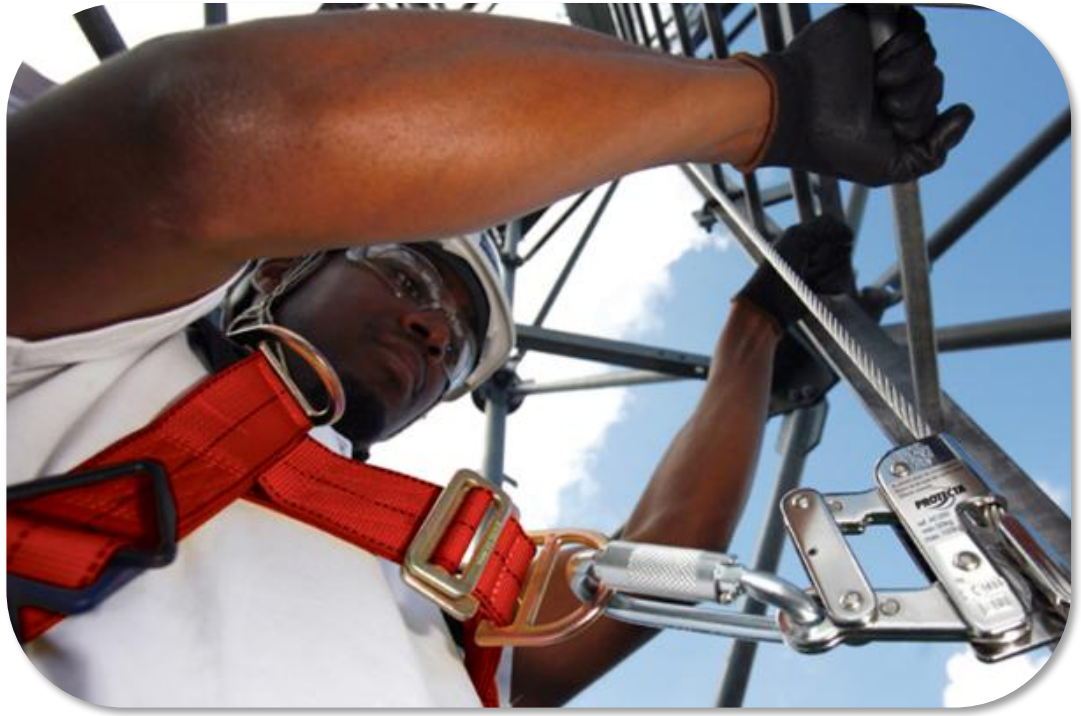
Compliance Assessment

The assessment criteria for complying with “Obligations and Responsibilities” under PPE Regulations and the criteria of the scheme will be assessed at least annually. Any defects found must be rectified within one calendar month and membership of the BSIF will be withdrawn if not corrected within 3 months following this.

Height Safety Installation and Maintenance - additional requirements

In the case of businesses active in the Height Safety Installation market, membership of the scheme will require compliance with the BSIF Height Safety Group agreed “Code of Conduct”.

Compliance will be assessed at least annually. Any defects must be rectified within one calendar month and membership of the BSIF will be withdrawn if not corrected within 3 months following this.



Registered Safety Supplier Scheme
6. Assessment Outcomes

Information Integrity

All Registered Safety Suppliers must comply with the codes of conduct required by the scheme and the rules of membership of the BSIF. This is summed up in the words ‘legal, decent, honest and truthful’.

All submissions to the Governing Board or third-party organisations contracted to the management of the scheme shall be accurate in content and will declare any non-compliances found during the application process. All Registered Safety Suppliers have an obligation to advise the Governing Board of any subsequent non-compliances together with details of the actions undertaken to correct the situation.

Removal of Registered Safety Supplier status

Withdrawal of scheme membership will also result in the loss of membership of the BSIF and may be publicised to the market by the BSIF. At this time, the member must, within 1 month of the withdrawal, remove all references of Registered Safety Supplier status and BSIF membership from its business correspondence, websites, business cards and any other area that is likely to be seen by prospective safety equipment users or customers.

In all cases, the decision of the Governing Board will be final. No additional correspondence will be entered into.

Registered Safety Supplier Scheme
7. Support for Members and Affiliates

The objective of the scheme is to ensure that specifiers, purchasers and users of PPE, Safety Products and Services are supplied with compliant, fit for purpose products and services which perform in line with claims made, through a capable supply chain.

BSIF recognises that the success of the scheme stimulates users and procurement bodies to specify membership of the scheme as a qualification for supplying their PPE & Safety Product/Service needs. This is recognised by the fact that many of the tenders issued in relation to PPE/Safety Products/Services now require membership of the BSIF and Registered Safety Supplier Status as a key part of pre-qualification.

BSIF undertakes to promote the benefits of the scheme and its messages through our websites, literature, sales activities, public relations activities, advertising, mailings, member support activities, external events, and other appropriate promotional opportunities.

Once an initial assessment has been successfully completed each Registered Safety Supplier will be listed as a Registered Safety Supplier within BSIF advertising, and on the BSIF websites.

They will also be supplied with a copy of the scheme ‘shield’ logo, the rules covering the ways in which the logo may be used and will be issued with a scheme certificate.

Registered Safety Suppliers are encouraged to use the ‘shield’ widely throughout their publicity material in accordance with the rules for its use.

Important
The Registered Safety Supplier Scheme shield is a ‘Collective Mark’ and it is a condition of its use that the mark shall not be used without indicating that it is a collective mark.

Registered Safety Supplier Scheme
8. Compliance with Legislation

Disclaimer: Important Please be Aware

Participation in the BSIF Registered Safety Supplier Scheme (RSSS) demonstrates merely an organisation's intention to undertake and maintain its obligations under applicable legislation including, but not limited to, the PPE Regulation (EU) 2016/425 as incorporated into UK Law in Great Britain, The PPE Regulation (EU) 2016/425, as it applies in Northern Ireland and the European Economic Area (EEA).

The BSIF scheme specifically draws attention to products such as Category II PPE items, which require suitable Type Examination and Internal Production Controls, and Category III PPE requiring the same, plus ongoing independent quality assurance through either Module C2 Product Verification or Module D Product Quality Assurance.

Participation in the scheme does ***not*** satisfy any of these obligations nor does it exonerate companies, officers, members, or individuals from their duties under these or other legal requirements. BSIF cannot be held responsible for any misunderstanding of the application of these rules and the effect of registration in the scheme.

Registered Safety Supplier Scheme
8. Compliance with Legislation

The Registered Safety Supplier Scheme relies on formal declarations from participating companies being supported by a robust quality assurance process verified through annual assessments.

Companies registered within the scheme demonstrated compliance at the time when their status as a Registered Safety Supplier was confirmed by a scheme administrator and following ongoing assessments.

The BSIF and the scheme Governing Board cannot be held liable for the actions of independently managed companies over which they exercise no control – this includes trading in non-compliant products, the inability of a product to perform as stated, and/or any consequential harm so caused.

The Governing Board will investigate reports of non-compliance within the scheme and take whatever action it feels to be appropriate at that time. It is always the responsibility of the specifier/purchaser of products to ensure that such products are compliant, suitable and adequate for use.

Should you require further assistance on how this may be achieved, please contact the BSIF – enquiries@bsif.co.uk

Registered Safety Supplier Scheme
9. Scope, Non-Liability, Non-Endorsement

Scheme Scope

The BSIF Registered Safety Supplier Scheme applies to organisations and seeks to verify the integrity of their offering in respect of PPE, safety equipment and safety services directly related to occupational safety.

Non-Liability

The scheme does not seek to provide verifications for individual products and services and does not seek to embrace products and services supplied by Registered Safety Suppliers, which are not directly related to occupational safety.

Non-Endorsement

The granting of the BSIF Registered Safety Supplier shield does not in any way endorse the company or the products and services provided by that company and does not seek to recommend any one scheme member in preference to another.

In the event of any dispute regarding whether products and services are directly related to the scheme, the Governing Board will be asked for a ruling which shall be final and not open to further debate
